REPORT

wall paint “**KEIM Mycal-Top**“

By order of: KEIMFARBEN GmbH
Keimstr. 16
D-86420 Diedorf

Expert: Prof. Dr. habil. Friedhelm Diel (Dipl.-Ing.)

Quality management: INSTITUT FÜR UMWELT UND GESUNDHEIT – IUG, Fulda

Time schedule: Nov 2016, Dec 2012 and years before
assessments according to REACH (EU 01-07-2007)
in agreement with the statements of the AVE e.V.

Aim of the study: Test and material assessment of the product “Wandfarbe KEIM Mycal-Top (V 71)” as to be recommended for indoor use for allergic persons.

Summary and conclusions:

The assessments of the silicate-based wall indoor paint KEIM Mycal-Top, Fa. KEIMFARBEN GmbH (Diedorf), which were performed by the INSTITUT FÜR UMWELT UND GESUNDHEIT – IUG (Fulda) in the years 2004 and 2007 (ex vivo-allergy measurements), did not show any indicator of significantly increased sensitizing potency for patients suffering from atopic diseases. Related to the state of the art on the basis of the submitted product data (ref. SDB) the wall paint KEIM Mycal-Top can be awarded to be a product which is suitable for allergic persons (“Allergiker-geeignet”).

The product label “Allergiker-geeignet” of the INSTITUT FÜR UMWELT UND GESUNDHEIT – IUG can be prolonged for one year until the end of 2017.
